TECH SKILLS

Analytics & Data Visualization: **Advanced Excel (Macro & VBA), PowerPoint, Tableau, Power BI, SQL, SAP Business Objects**

Project & Workflow Tools: **Jira, Figma, PowerPoint, CRM**

AI, Automation & Generative Technologies: **Python, ML Models, Generative AI / Agentic AI, Prompt Engineering, Voice Agents**

EXPERIENCE

Strategy Consultant - Deloitte - Healthcare

Mar'26-Present

- **Led missing charge capture analytics** for a U.S. healthcare provider as part of a revenue cycle optimization initiative; tested multiple hypotheses, applied association rule mining and ML algorithms in Python, utilized AI resources and built Power BI dashboards to surface patterns of revenue leakage — surfacing **\$1.2M in revenue leakage (2025)**, recovered by the client.
- Analysis drove **account expansion into new states** and a **follow-on strategy engagement on drug wastage** - a key leakage driver.
- Designed and deployed a Python/Power Automate solution automating 6 recurring pitch and steering committee decks, **cutting prep time from 20+ man-days to under 5 hours** and freeing the team for higher-value analysis.

Team Lead, Business Analyst - Cotiviti - Healthcare

Sep'20-Feb'26

- **Led a cross-functional team of 11** business analysts and BI developers across India and Mexico serving as **primary client interface**; fast-track promoted to Lead based on delivery outcomes.
- Led requirements elicitation for **U.S. healthcare payer Go-to-Market initiatives**, producing **BRDs, FSDs, and user stories**; trained in HL7, FHIR, EHR, and HIPAA compliance.
- Analysed insurance claims data using **Hive (SQL)** to identify cost-saving opportunities; designed and wireframed analytics solutions in **Figma**, and developed interactive dashboards in **Power BI** and **Tableau**, driving **~\$80M** in realized annual client savings.
- Led **data quality testing efforts** by validating edge cases, reconciling source to report data integrity, verifying transformation logic and driving UAT to ensure high reporting accuracy.
- **Identified opportunities to automate** recurring reporting and manual workflows, championed initiatives using Power Automate and Jira-based processes, **cutting report turnaround time by 27%** and reducing manual effort by 50%.
- Led **Agile/Scrum ceremonies**, guiding sprint planning, backlog grooming, ETL coordination, and UAT; drove initiatives that integrated **AI and machine learning**, including **forecasting models** that generated client cost savings and a **voice chatbot** to optimize triaging of client requests.

Senior Associate - Knight Frank - Real Estate

June'19-Aug'20

- Conducted market research across 8 metros and 20 tier-2 cities on warehouse and land demand—supply, and collaborated with IT and BD teams to **centralize unstructured data**, enabling **analytics-driven client insights**.
- Prepared **reports and executive presentations using Excel and PowerPoint**, contributing to the **annual India Warehousing Market Report** and supporting client leads, hiring strategy, and competitor analysis.

EDUCATION

- **MBA: RICS-UK & Amity University** | CGPA – 9.06 (3rd in Batch) 2017-19
- **B.Tech- Civil Engineering: Techno India College of Technology** | CGPA – 8.53 (2nd in Batch) 2013-17

CERTIFICATIONS

- **MBA, PMI-GAC Certified**
- **Anthropic certified- Claude 101 & AI Fluency Framework & Foundations**

- **Tableau Certified Professional – UpGrad**
- **Complete Guide to Power BI for Data Analysts – Microsoft Press**
- **Databricks Fundamentals Accreditation – Databricks**
- **Introduction to Generative AI – Google Cloud Skills Boost**
